- Recently, **Superapp CryptoWire** launched India's first cryptocurrency index, **IC15**. It will measure the performance of the 15 most widely traded cryptocurrencies listed on leading crypto exchanges by market capitalization.
- It's aim is to **increase awareness and knowledge of the cryptocurrency and blockchain ecosystem, and help investors understand how virtual coin trading works.**
- **An Index Governance Committee (IGC)** of domain experts, industry practitioners, and academicians **will select the top 15 cryptocurrencies.** The index will be reviewed quarterly.
- As of January 1, 2022, Bitcoin, Ethereum, Binance Coin, and Solana are sitting on the top four positions on the IC15 index.
